- General Notes about searching options:
1. The map initially loads with all single family fee simple transfers for the state during the past 1 month.
 2. You can filter and search by any field or combination of fields in the PTT-172.
 3. Keep in mind that the more filters you use the fewer results you will receive.
 4. The data for the sales information may contain some location inaccuracies. Geocoding in VT is difficult due to rural locations.
 5. As you select filters the results do not change until you click the "Apply Filters" button. You can select one at a time and apply or select several and apply once.
 6. The "Select All Filters" button enables all search box filters except for County and Town. If you select this the map load time may increase.
 7. The "Clear All Filters" button resets the map to its default load of all single family sales for the past 1 month statewide.
 8. It is recommended, but not required, to select the counties you will be working in for quicker map loads.

Select your county(s) and/or Town(s)

✕ Clear Map Selections

A map of Vermont showing property sales data. The map is covered with numerous orange triangles representing individual property sales. A large, irregular blue boundary is drawn across the map, enclosing a significant portion of the state, including the towns of Lamoille, Morrisville, and Stowe. The map also shows major roads (VT 108, VT 104, VT 100, VT 15, VT 14, VT 16, VT 12, VT 9, VT 7, US 7, US 2), towns (Montpelier, Morrisville, Stowe, Lamoille, Chittenden, Milton, Ex Junction, Montpelier, Morrisville, Stowe, Lamoille, Chittenden, Milton, Ex Junction), and parks (Green River Reservoir State Park, Woodbury Mountain Wilderness Preserve, Worcester Woods, C.C. Putnam State Forest). The map is titled "126 Sales at 127 Properties in current view" at the top left. A red arrow points from the "Apply Filters" button in the sidebar to the map.

Properties are matched by SPAN. When you hover over a dot the popup window expands to show all historical sales of that property.
